Spanish Course with Maria

Barcelona I
6 - 13 September 26

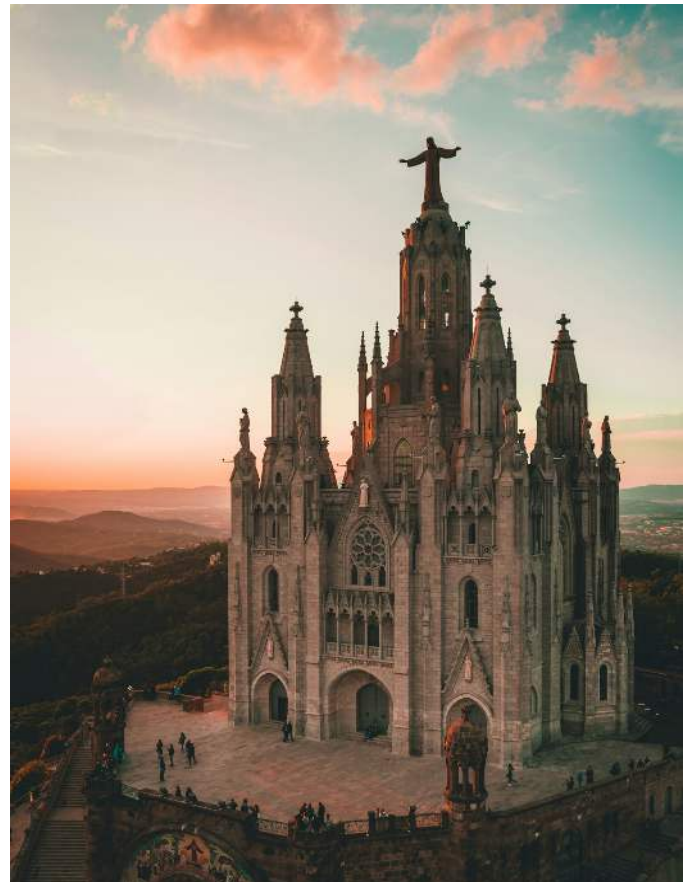

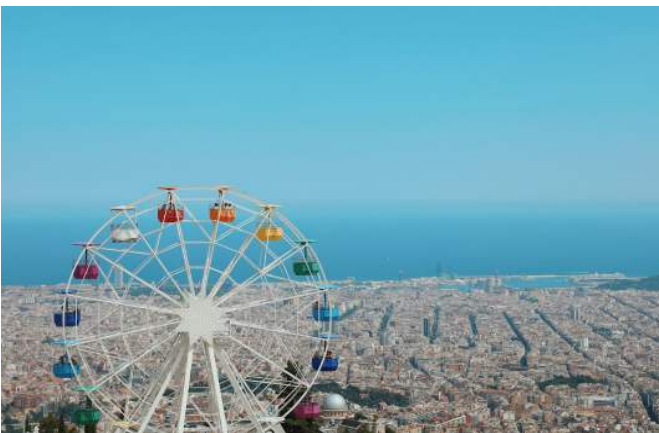

Introduction

Barcelona is M's city, where she was born and grew up a few years ago. It is an extremely popular city with people from around the world, and it is interesting not just for the amount of history, art, culture, and cosmopolitan vibe that it has, but also for the changes it has undergone since Maria was born there in 1973.

During your stay in Barcelona you will have the opportunity not only to explore the most famous landmarks but to follow Maria to places that mean more to her; those places she calls "my very own Barcelona" (la meva estimada Barcelona)..

Every morning we will be running two 90 minute Spanish lessons which will accommodate Beginners to Advance levels. The afternoons and the weekend will be to discover what makes Barcelona a wonderful city, from the mountains all the way to the sea, trying the best food, visiting unique landmarks and sampling local traditions.
