Introduction

If you travel somewhere, and you love it, repeat !

After we travelled to Tunisia a couple of years ago, and had fallen in love with the country, we decided that we would go back and explore further into the desert. With the help of our local partner, who we met during our travels on the first time round, this trip will give you the opportunity to get an incredible insight into Tunisia and its people. Their warmth, resilience, and deep-rooted culture make this country so special, and it's present all around.

This is a perfect destination, so close from home, yet it offers such a contrast in culture. It is a place where you can communicate in so many different languages, and feel so many different cultures all at once.

Bring your camera, the scenery is truly spectacular. Here is a link to our first time in Tunisia
